

## COVID-19 SANITARY MEASURES

- In order to protect all guests staying in our Bed & Breakfast, we take the recommended sanitary measures for tourist accommodation:
  - Hydro-alcoholic gel is available to our guests.
  - Space is set up to allow for necessary distancing on terraces, at the pool, for breakfast.
  - Frequently touched items in common areas (door handles, switches, etc.) are cleaned regularly with a virucide cleaner.
  - The guest rooms are cleaned with virucidal products.
  - Bed linen, bathroom towels and table clothes are washed at 60° Celsius and then ironed with a steam iron.
  - Dishes are washed at 60° Celsius.
- These measures allow you to spend a peaceful stay in a natural and relaxing environment away from the crowd.
